

IN THE CLAIMS

Please amend the claims as follows:

Claim 1 (Original): A glass coated with a heat reflecting colored film, which comprises a glass substrate, and a first layer containing iron oxide and a second layer containing cobalt oxide, laminated sequentially by a sputtering method on one side of the glass substrate, wherein:

in the first layer, the amount of iron based on the total metal amount is at least 60 mass%, and

in the second layer, the amount of cobalt based on the total metal amount is at least 60 mass%.

Claim 2 (Original): A glass coated with a heat reflecting colored film, which comprises a glass substrate, and a first layer containing cobalt oxide and a second layer containing iron oxide, laminated sequentially by a sputtering method on one side of the glass substrate, wherein:

in the first layer, the amount of cobalt based on the total metal amount is at least 60 mass%, and

in the second layer, the amount of iron based on the total metal amount is at least 60 mass%.

Claim 3 (Original): A glass coated with a heat reflecting colored film, which comprises a glass substrate, and a first layer containing iron oxide, chromium oxide and nickel oxide and a second layer containing cobalt oxide, laminated sequentially by a sputtering method on one side of the glass substrate, wherein:

in the first layer, the amounts of iron, chromium and nickel, based on the total metal amount, are as follows:

iron: from 60 mass% to 85 mass%,

chromium: from 10 mass% to 28 mass%, and

nickel: from 5 mass% to 24 mass%, and

in the second layer, the amount of cobalt based on the total metal amount is at least 60 mass%.

Claim 4 (Original): A glass coated with a heat reflecting colored film, which comprises a glass substrate, and a first layer containing cobalt oxide and a second layer containing iron oxide, chromium oxide and nickel oxide, laminated sequentially by a sputtering method on one side of the glass substrate, wherein:

in the first layer, the amount of cobalt based on the total metal amount, is at least 60 mass%, and

in the second layer, the amounts of iron, chromium and nickel, based on the total metal amount, are as follows:

iron: from 60 mass% to 85 mass%,

chromium: from 10 mass% to 28 mass%, and

nickel: from 5 mass% to 24 mass%.

Claims 5-8 (Canceled).

Claim 9 (Original): A glass coated with a heat reflecting colored film, obtained by heat treatment of the glass coated with a heat reflecting colored film as defined in Claim 1.

Claim 10 (Original): A glass coated with a heat reflecting colored film, obtained by heat treatment of the glass coated with a heat reflecting colored film as defined in Claim 2.

Claim 11 (Original): A glass coated with a heat reflecting colored film, obtained by heat treatment of the glass coated with a heat reflecting colored film as defined in Claim 3.

Claim 12 (Original): A glass coated with a heat reflecting colored film, obtained by heat treatment of the glass coated with a heat reflecting colored film as defined in Claim 4.

Claim 13 (Original): The glass coated with a heat reflecting colored film according to Claim 9, wherein the surface sheet resistance of the film-coated side is at least $10^5 \Omega/\square$.

Claim 14 (Original): The glass coated with a heat reflecting colored film according to Claim 10, wherein the surface sheet resistance of the film-coated side is at least $10^5 \Omega/\square$.

Claims 15-16 (Canceled).

Claim 17 (Original): The glass coated with a heat reflecting colored film according to Claim 9, wherein the visible light transmittance is from 20 to 40%, and the visible light reflectance of the film-coated side and the other side is from 20 to 40% and from 10 to 25%, respectively.

Claim 18 (Original): The glass coated with a heat reflecting colored film according to Claim 10, wherein the visible light transmittance is from 20 to 40%, and the visible light

reflectance of the film-coated side and the other side is from 20 to 40% and from 10 to 25%, respectively.

Claims 19-24 (Canceled).

BASIS FOR THE AMENDMENT

Process Claims 5-8 and 21 to 24, held to be withdrawn from further consideration in the parent application, have been cancelled.

Claims 15, 16, 19 and 20, considered by the Examiner to be allowable in the parent application, have been cancelled in this application, they being considered allowable in the parent application.
